

February 23, 2015

Dear Sir or Madam,

We have been a long standing customer of Saba Energy Consulting since 2009. When Bob first contacted us, we were very interested in the concept of saving on our electricity rates, but were being inundated by phone calls from various different energy companies. We were quite impressed with Saba Energy as they explained the process and benefits of changing electricity suppliers at the right time in the market. We value our long term relationship with Bob at Saba Energy consulting and look forward to more electricity cost reduction strategies in the years ahead, as we have saved thousands of dollars each year with Saba Energy.

Best Regards,

Joe A. Contreras
